the Entente.

LONDON, Sept. 5.—Gradually the lines of the entente are drawing closer about Comblies and toward Peronne, driving deeper their wedge into the German positions north and south of the Somme. On a twenty-five mile front French and English troops, supported by enormous artillery activity, tonight are still battering at the German positions and sustaining heavy counter attacks. North of the Somme, east and southeast of the town of Fismes, the French have driven toward their lines, capturing the outskirts of Aulnois Wood, the Hospital Farm and Ramecourt Wood, part of Mureaux Wood and a position on the road between Bapaume and Fismes.

Near Arras, north of Guise, the British have made further progress, seizing all the territory between Falfemont Farm and Leuze Wood and between the latter place and the outskirts of Cambrai, which they captured Sunday and have held since.

South of the Somme the French have taken Chilly, one line of German trenches and of Savy and numerous isolated positions. Since Sunday the French have captured more than sixty-five hundred prisoners and thirty-six heavy guns.
